Houzz Mood®

The Perfact Choice for Modular Kitchen Furniture, Hardware & Interior.

Spaces made for your life

Modular kitchens, wardrobes & complete interiors

JAIPUR

About Houzz Mood

Personalised interiors for homes and workplaces

Houzz Mood designs modular kitchens, wardrobes and furniture around your space, requirements and everyday use. Our range extends to complete residential and commercial interiors, with guidance from planning through installation.

In-house manufacturing, premium materials and transparent guidance support each project.

Solutions for every brief

01 Selective

Custom modular kitchens, wardrobes and furniture tailored to your requirements and available space.

02 Elite

Complete home interiors, from concept and material selection to coordinated execution and installation.

03 Commercial

Custom modular furniture and interior solutions for offices, showrooms and other commercial spaces.

The final scope and specifications are recorded in the approved quotation.

Vision, mission & purpose

01

Our vision

Make functional modular furniture and quality interiors accessible, so more people can create spaces they love.

02

Our mission

Combine thoughtful design, dependable products and after-sales service to meet each client’s needs.

03

Our purpose

Create residential and commercial spaces that reflect individual preferences and support daily life.

The Houzz Mood promise

01

Premium Quality

Careful material selection and factory-finished modular furniture.

02

Transparent Process

Clear specifications, material guidance and stage-wise communication.

03

Complete Satisfaction

Personalised design and attention to your requirements.

04

1 Year Service Warranty

Free installation and service warranty for one year.

05

5+ Years Product Warranty

As per respective brand/product warranty terms.

06

2500+ Happy Clients

A relationship built on thoughtful spaces and dependable service.

Our services

01

Modular living

Kitchens, wardrobes, profile doors and customised furniture.

02

Furniture & storage

Beds, sofas, TV units, crockery units, vanities, study tables, dressers, bookshelves and display racks.

03

Home & commercial interiors

Complete home, office and showroom interiors, turnkey projects and renovation.

04

Design & technical planning

Space planning, 2D layouts, 3D designs, architectural consultancy and civil drawing guidance.

05

Partitions & hardware

Modular aluminium, S.S. designer and glass partitions, profile shutters and premium hardware.

Why professional design

01

A plan that fits your space

Layouts bring together storage, circulation and daily use before production begins.

02

Better-informed selections

Compare finishes, hardware and material specifications against your requirements and budget.

03

Coordinated execution

Drawings and clear approvals help the design team, vendors and installation team work to one plan.

04

Support through handover

Review the completed scope and note any pending items with the project team.

Shutter finishes

Laminate / mica

Merino, Advance, Century and other options listed in the final quotation.

Acrylic

REHAU, Dexerte and approved alternatives, with the selected shade and surface finish.

Poly-glass

2 mm acrylic finish option.

PU painted shutters

Plain or designed shutters in the approved colour and finish.

Veneer & veneer PU

Natural wood appearance with the selected veneer and PU finish.

Brand, thickness, colour and finish are confirmed through samples and the approved quotation.

Glass & profile finishes

01

Lacquered glass

Glass shutter finish in the selected colour.

02

Aluminium glass profile

Aluminium-framed glass shutters with the selected profile and glass.

03

Leather profile shutters

Leather-look profile shutter options as per the approved sample.

04

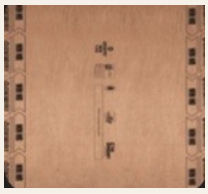

UV shutters

UV-finished shutter options as per the approved sample.

Final selection depends on the application, approved specifications and availability.

Core material options

MR plywood

Moisture-resistant plywood

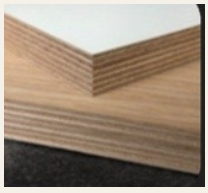

BWR plywood

Boiling-water-resistant plywood

BWP plywood

Boiling-water-proof plywood

Birch plywood

Russian birch plywood option

HDHMR board

High-density, high-moisture-resistant board

Boilo board

Boiling-water-proof board option

Grade, thickness and suitability must match the selected product specification and approved quotation.

Hardware & accessories

Movement & access

Slim tandem boxes, auto and hydraulic hinges, drawer systems and aluminium profile shutters.

Kitchen organisation

Pantry units, bottle pull-outs, corner systems and other selected kitchen accessories.

Selection & specification

The brand, model, size, quantity and finish are confirmed in the quotation before order placement.

Product warranty follows the respective brand and product terms.

Design & execution

01 Brief & feasibility

Discuss the site, requirements, design preferences, budget and expected schedule.

02 Layouts & design

Prepare the agreed 2D / 3D design scope, internal layouts and finish selections.

03 Approval & production

Confirm drawings, materials, hardware and quotation. Start production against the agreed approval and payment stage.

Production and dispatch schedules depend on the approved scope and material availability.

Installation & handover

04 Installation & coordination

Coordinate the furniture installation and the approved civil, plumbing, electrical, flooring or ceiling scope where included.

05 Inspection & handover

Review the completed work with the client. Record any pending items and share warranty and care information.

06 After-sales service

Provide service support as per the applicable warranty. Chargeable visits follow the service terms in this portfolio.

Cleaning work is chargeable. Confirm the required cleaning scope in advance.
